Re: Fw: TPM sensor nipples falling off

This is new news to me...Can I get some more info on this? Is this a TPM specific issue or wheel issue? Anything to help...thnx.

Fw: TPM sensor nipples falling off

[REDACTED],
We are getting a lot of heat from the Euro community re: our TPM's falling out - Does someone have a list of service parts that they can order to remedy? At present we are anxiously waiting on LE parts - but unsure of the correct part number Thanks so much.
